You can watch videos of your students taking their exams by clicking the blue “View” link. If the “View” link is not clickable, that means the exam has not yet been audited. All exams will be audited within 48 hours of the student completing the exam.

About FairExam[®] Levels for Online Test Security

Examity[®] provides you with the flexibility to choose which security level makes most sense with our FairExam[®] Levels for Online Test Security.

Level AA: Auto-Authentication

Designed for lower stakes assessments and meeting accepted standards. Test-takers snap pictures of their ID and face, answer challenge questions and enter a biometric keystroke signature to verify identity.

Level LA: Live Authentication

Live Authentication is best suited for tests that matter more. Level LA ensures an agreed-to understanding of exam rules and “clean” test environment. Challenge questions, ID verifications, facial comparisons, keystroke analysis and full recordings help make this level our most reliable authentication.

Level 1: Auto-Proctoring

Examity[®]'s fully automated proctoring solution. After auto-authentication is complete, Examity[®] captures audio, motion, and systemic changes to identify inappropriate behaviors.

Level 2: Record and Review Proctoring

After live-authentication, each test is recorded from start to finish and is later viewed by a human, in its entirety, to ensure that no rules have been violated

Level 3: Live Proctoring

After completing the live-authentication process, Examity[®] monitors the test-taker's surroundings and entire desktop throughout the exam. This is considered the most secure approach within the online proctoring industry. An advantage to this level is that Examity[®] may comment and troubleshoot in real-time during the test.
